

DSA in JavaScript

❖ DSA

Data Structures and Algorithms

❖ Whats is Data Structures ?

Data Structure is a method for grouping and handling data in systematic way to make the software cost effective.

❖ Types of Data Structures ?

1. Primitive

String, Number, Boolean, Undefined, Null

2. Non-Primitive

Array, Object, Sets, Maps, WeakSet, WeakMap

3. Custom Data Structures

Linked List, Stack, Queue, Hash Table, Binary Tree
